Mr Ishan Wijesingha

Front-End Developer
Software Engineer

Summary

I am keen, hard-working, and driven. I love rising to the challenge and always giving my best, once I understand what is requited of me, I go above and beyond. I am skilled in **JavaScript, HTML5, CSS, JSON, AJAX, Git** and **React**. I am currently completing a certification for web development in the Monash University Coding Bootcamp. I have also earned two certifications on Udemy, one for JavaScript and one for HTML and CSS. My portfolio shows numerous projects I've completed which offer high level functionality that demonstrates both UI and UX expertise.

Skills

- **JavaScript** (ES6 features, Object-oriented Programming, Functional Programming, promises, complex array methods, complex DOM manipulation, high level scoping, event propagation, intersection observer to create a variety of features, many other smaller skills)

- **HTML** and **CSS** (HTML5 features, CSS3 features, FlexBox, CSS Grid, responsive design)

- **React JS** (JSX manipulation, props, states, hooks, event handling, conditional rendering)

- Fluent with using **Git** (GitHub, GitLab, GitBash)

- Genuine love of learning

- Natural team player and active listener, can easily connect with others and move forward together

- Constant growth mindset

Education

- Monash University Coding Bootcamp graduate 2022

- Udemy certification: The Complete JavaScript Course 2022: From Zero to Expert

- Udemy certification: Build Responsive Real-World Websites with HTML and CSS

- Goulburn Valley Grammar School graduate 2019 (private secondary school)

Experience

- One week of work experience at Laurie McGoldrick Consulting Engineers. I learnt to use digital applications for designing structures like sheds, pillars, and bridges so that they don't malfunction or collapse. I went to meet with new clients about structures that were being built or structures that needed to be repaired.

- Reading to children and helping children with their homework at St George's Road Primary School. Once a week for 6 months, I assisted young children (most of which were disadvantaged) with their education.

Relevant awards and achievements

- Maths Methods 3/4 Subject Award 2019

- AMEB Voice and Communication Award 2017 (public speaking)

- AMEB Voice and Communication Award 2016 (public speaking)
